

I am writing to you about maintaining K-love radio station in my communitiy. This station is very important to my family and many people. We already have plenty of local broadcasts but this is the only station we have that plays continuous Christian music. This station has reached many people with God's word and has touched many lives. Please don't displace K-love with an LPFM. I would be devastated to not be able to listen to K-love everyday while driving to work. It would also have a negative effect on many people in our community. Thank you for your help. Susan Hey
